

PrepareAthon

at the Science Museum of Virginia

Saturday, August 27 • 11 am – 4 pm

Celebrate preparedness during **PrepareAthon**, a free community event at the Science Museum of Virginia!

Uncover life-saving information to protect your family during an emergency and learn more about resiliency. Register for a Disaster Preparedness Workshop to receive a free Preparedness Kit, valued at \$45, and meet with local experts to discuss food, water, energy, health and safety preparedness. Learn hands-only CPR, ride inside of an ambulance simulator, save three lives by donating blood and more!

Enjoy resiliency-themed climate change activities in the Museum, including Science on a Sphere® demonstrations, hands-on experiments in Eco Lab and beyond. Build your own water filter, make a solar oven and check out a bicycle-powered blender that will be making delicious smoothies! Head into The Dome theater to see a custom ecological presentation and watch special showings of **Forces of Nature** and **Grand Canyon Adventure**. Join us at **PrepareAthon** to find out how to be better prepared within your community in case a disaster strikes!

Admission to PrepareAthon and Museum exhibits are free on August 27, 2016 only.

Additional fees for Dome Features apply. Pre-registration required for workshops.

For more information or to register for a workshop, call 804.864.1400.

PrepareAthon hosted by Science Museum of Virginia under award # NA15SEC0080009 from the Environmental Literacy Grant (ELG) program of the National Oceanic and Atmospheric Administration (NOAA), US Department of Commerce. Statements, findings, conclusions, and recommendations are those of the museum and do not necessarily reflect views of NOAA or US Department of Commerce.
